Registering for online competition entry

We use a cloud-based (online) competition entry system, which has proved very popular amongst members and we would encourage you to take advantage of the flexibility and control that it allows.

The advantages:

- Image history: you will be able to view your past entries and scores at any time - *makes Print/PDI of the Year a piece of cake!*
- Your images will be immediately available to the webmaster and regional selection committee - *no need to run around digging out past entries.*
- You can delete images or change images in any open competition, right up until the time that the competition is marked as 'closed' - *no need to beg for extra time and if you get that winning shot at the last minute you can slip it in!*
- Once a competition is marked as 'judged' you can see your own scores in that competition.
- You will be informed if your image is not in the correct format at the point of loading - *you get the chance to correct it and it's not left to the software to try and guess what you intended!*
- Digital copies of your prints can be projected during Print Competitions - 'them at the back' can enjoy the competition with good visibility.
- Digital images are a requirement for all competitions, it is much easier to upload them than having to get them to the correct competition organiser, in good time, for yourself.

DON'T WORRY IT'S REALLY QUITE EASY

First step:

Register by sending an email to the Competition Secretary and include your membership number;

You will receive an automated reply, simply follow the setup instructions.

If you get stuck just reach out and we'll help you get up and running.
